First Plenary Session
Pros and Cons of a Centralized European Pricing & Reimbursement Agency

Mark J. Sculpher, MSc, PhD
 Professor of Health Economics
 Centre for Health Economics, University of York
 Heslington, York, UK

Moderator

Context

Marketing Authorisation

➔

Pricing and reimbursement

- Centralised European process
- Unified position on methodology & process
- Single submission to EMA
- Licenses recognised in EU/EEA-EFTA

Assessment

- Variation in approved methodology
- Manufacturer vs. '3rd party'
- Resources available
- Preference for local data
- Multiple (and varying) submissions

Appraisal

- Differences in priorities & budgets
- Role of price
- Local vs. national

Questions posed

- Is there scope for a centralised European process for pricing and reimbursement?
- Would this cover assessment and appraisal?
- What are realistic timelines for centralisation?
- Is greater coordination desirable instead of/until centralisation?
- What are the key features of any coordination/centralisation?
