# Therapeutic and Diagnostic Device Outcomes Research

An outcomes research primer for those in the therapeutic and diagnostic device field with the purpose to inform:

- 1) Health outcomes researchers on the unique characteristics of therapeutic and diagnostic devices, and
- 2) Medical device developers and researchers on the basic principles of clinical, economic, and patient-reported outcomes research for therapeutic and diagnostic devices.

## Table of Contents

- Part 1: Introduction
- Part 2: Research and Development
- Part 3: Regulatory Requirements in USA & Europe
- Part 4: Clinical Outcomes Research
- Part 5: Therapeutic Device Clinical Outcomes Research
- Part 6: Diagnostic Device Clinical Outcomes Research
- Part 7: Drug-Device Combination Research
- Part 8: Economic Evaluations
- Part 9: Patient-Reported Outcomes Research
- Part 10: Evidence Development and Reimbursement
