The ISPOR 20th Annual International meeting hosted four forums related to regions of Latin America:

- From Cost-effectiveness to Equity: Challenges Facing Health Care Systems in Latin America: Hosted by the ISPOR Latin America Consortium
- Syncing Information Chains with Health Systems Development for Better Outcomes: Hosted by ISPOR BRICS Regional Chapters
- The Role of HTA in the Quest towards Universal Coverage in Mexico: A Government, Academic and Industry Perspective: Hosted by ISPOR Mexico Regional Chapter
- Incorporating Equity into HTA: Methods, Tools and Applications in Latin America: Hosted by the ISPOR Latin America Consortium

The Meeting featured more than 140 posters on the Latin America region and studies presented by Latin American researchers. From the Brazilian context, there were 53 posters, Colombia 34, Mexico 29 and many more from Argentina, Chile, Peru and Central American Countries. To view posters presented at the meeting, visit the ISPOR’s Scientific Presentations Database.
