Presenters are responsible for hanging their posters and ensuring they remain on display for the full duration of their assigned poster session. Each presenter will be assigned a discussion period time slot during Poster Session 1, 2 or 3, and is required to be present at their poster during this scheduled session to engage with attendees and discuss their research.

In App Poster Gallery

Posters will be featured in the conference app for viewing. All poster presenters are asked to upload a PDF of their poster prior to the conference. Attendees will be able to scroll through and search posters before and during the conference. Enhance your poster experience by uploading a handout.

IMPORTANT: Only presented research will be published in *Value in Health* and the expectation is that your poster will be on display during your assigned poster session(s).

Please note: failure to present your poster in-person at the Summit is considered a withdrawal. ISPOR requires notification of withdrawal in advance of the conference. Please send all withdrawal requests to summits@ispor.org.

POSTER FORMATTING GUIDELINES

- The poster orientation must be Vertical/Portrait. **Suggested Print Size: Standard A0 format [A0 dimensions: 841mm x 1189mm (33.1in x 46.8in)]**
- You may use PowerPoint or any program to design your poster that can be converted to PDF.
- The poster must be **one slide/page**.
- ISPOR-provided acceptance code must be added to the top right-hand corner of your poster (example, RWD1)

Poster Formatting Best Practice Tips

- **Important Reminders**
 - All poster presentations must be noncommercial and scientific in nature. Poster presentations may not be used as a marketing opportunity to promote any product or service.
 - Generic names should be used for technologies (drugs, devices), not trade names.
- **Less is More**
 - Avoid excessive detail in the text or complex graphs and tables with excessive numbers. An effective display is a series of brief statements and supporting illustrations that tell a story.
 - Provide clear labels or headings for each section of your presentation to avoid confusion. The flow of your research should be clearly indicated with distinct columns, letters, numbers, or arrows.
 - Remember, posters are not manuscripts. Limit text to the essentials.
- **Font**
 - Pay attention to your font size, text should be easy to read.
 - Recommended font types: Calibri, Arial, Times New Roman

- For images/pictures or graphs, the suggested resolution is 300 dpi. It is better to use high quality images/graphs when creating the poster and then convert it to PDF (as PDF files can be compressed).
 - To check that they appear correctly on the final/printed version, zoom in at 100% and check the images, pictures, and graphs.
- **Background**
 - When choosing a background, remember that neutral or gray colors will be easier on the eyes than a bright color. In addition, color photos look best when mounted on gray.
 - Avoid "busy" slide backgrounds.
 - Always have high contrast between colors (e.g., background and text).
 - On light backgrounds (white, yellow, light blue) use dark fonts (black, navy blue, dark green).
 - On dark backgrounds (blue, purple) use light fonts (white, yellow, cyan).
 - Balance text and images.
- **Try to Avoid**
 - Having a total file size that exceeds 10 MB.
 - The use of red or green in fonts or backgrounds as they are colors that are difficult to read.
 - Stretching the images manually, they will lose quality once zoomed in.
 - Full width sections. They are difficult to read when divided as a section, even zoomed in.

SUPPLEMENTAL MATERIALS

Presenters are also encouraged to upload supplemental materials to the ISPOR Asia Pacific Summit 2026 mobile app to further display their research to attendees. Uploading supplemental material allows registrants to get the full experience of your research.

Handout (PDF): Elaborate on your findings with additional information

- Share your contact information, links, data, or other resources that contributed to your research, but don't forget copyright rules
- Create and upload as a .pdf file

WHAT TO EXPECT ONSITE

Shipping Your Poster

The presenter must organize any special shipping arrangements needed on their own. ISPOR is unable to ship or store any material.

Poster Session Location

Posters will be located in Riverside Ballroom in the Royal Orchid Sheraton Riverside Hotel. This location will be a high traffic area for attendees to take part in the networking opportunities that poster sessions have to offer. A poster help desk will also be located near the poster area, with staff available to answer questions.

Accessing Riverside Ballroom

- Poster presenters are required to wear their name badge to access the Poster Area. You will not be able to gain access without a name badge.
- Final poster session, discussion period, poster set-up, and poster tear down will be provided in the "Know Before You Go" email sent to all poster presenters about 1-2 weeks prior to the Summit. This email will also contain poster board numbers and any additional information that may be helpful to know prior to arriving onsite.

ISPOR will provide the following for poster presenters

- Freestanding **VERTICAL/PORTRAIT poster board**
 - Staffed Poster Help Desk to help answer questions throughout both days of the summit
 - Poster board numbers

What's the difference between poster board numbers and acceptance codes?

Poster Board numbers are assigned and printed by ISPOR and are 4-digits (ex. 4000). This number indicates where you should hang your poster during your session. Presenters will receive their assigned poster board numbers approx. 1-2 weeks before the Summit.

Acceptance codes are assigned by ISPOR in your acceptance notification emails (ex. RWD124). Presenters are required to print their acceptance code on the top right corner of their poster. This helps attendees find your poster in the ISPOR Asia Pacific Summit 2026 mobile app.
