Supplementary Table 1: Demographics of the Modeled Population

n=5158*	Period 1 (2009–2011)	Period 2 (2012–2014)	Period 3 (2015–2017)	All periods (2009–2017)	P-value
Age group, n (%)					
<50	102 (9.72)	108 (6.12)	130 (5.55)	340 (6.59)	<0.001
50–59	262 (24.98)	507 (28.73)	582 (24.83)	1,351 (26.19)	
60–69	280 (26.69)	479 (27.14)	775 (33.06)	1,534 (29.74)	
70–79	264 (25.17)	434 (24.59)	556 (23.72)	1,254 (24.31)	
80+	141 (13.44)	237 (13.43)	301 (12.84)	679 (13.16)	
Sex, n (%)					
Male	838 (79.89)	1,425 (80.74)	1,870 (79.78)	4,133 (80.13)	0.73
Female	211 (20.11)	340 (19.26)	474 (20.22)	1,025 (19.87)	

*2018 data were excluded due to late reporting of mortality cases for the year
