Quickly find the content you need with AccessIQ, our AI Assistant

## Our Consultancy services

Based across the UK & Europe, our expertise spans over 20 markets, making us the partner of choice for successful patient access in Europe.

## Why work with the MAP Group?

### Rich Expertise

With over 400 years of combined experience across European markets, our team brings profound expertise from diverse sectors including industry, health authorities, HTA and payer organisations, healthcare, academia, and consultancy.

### Matrix Approach

We tackle challenges from multiple perspectives, ensuring a holistic view by involving various functions in the decision-making process, thus connecting all the dots.

### Joined-up Services

Our comprehensive services cover the entire product lifecycle, from regulatory application through reimbursement, to early launch and commercialisation ensuring seamless support at every stage.

### Power of our Network

Our extensive network, encompassing a wide range of stakeholders, grants us access to insights informing an optimal market access launch in Europe.

### Tailored Approach

We offer expert consultancy paired with digital solutions, customised to your unique circumstances, to help get your products from the laboratory to patients as smoothly and quickly as possible.
