# Emerging Methods in Real World Analyses Involving Social Determinants of Health

Tuesday, May 17, 2022  
Spotlight Session

## Antitrust Compliance Statement

- ISPOR has a policy of strict compliance with both United States, and other applicable international antitrust laws and regulations.
- Antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade.
- ISPOR members (and others attending ISPOR meetings and/or events) must avoid discussing certain topics when they are together including, prices, fees, rates, profit margins, or other terms or conditions of sale.
- Members (and others attending ISPOR meetings and/or events) have an obligation to terminate any discussion, seek legal counsel's advice, or, if necessary, terminate any meeting if the discussion might be construed to raise antitrust risks.
- The Antitrust policy is available on the ISPOR website.

# Welcome to the Spotlight Session on Emerging Methods in Real World Analyses Involving Social Determinants of Health
