  • Dismantle access will be through the Willy Brandt entrance ONLY. |

Per safety regulations instituted by the city of Barcelona and enforced by the CCIB, please be aware that you must wear steel-toed shoes during show install and dismantle as outlined above. Helmets and/or reflective vests may also be required during move-in/out depending on your stand plans. Details are included in the Online Exhibition Manual. Note that every person entering the trade show floor during installation and dismantle will be required to adhere to these safety regulations or access will not be permitted. NO EXCEPTIONS. Do not ship your safety gear with your stand supplies; you will not be able to access the Trade Show floor or Resa freight area to retrieve them and begin your build-up!

Be advised that beginning at 11:30 on Wednesday, 20 November during dismantle, anyone on the Trade Show floor without steel-toed shoes will be asked to exit the Exhibition Area as it is becoming a construction zone. Please make sure you have your proper footwear to dismantle your stand, no matter how small or large it is.

You can order a waste container if you anticipate waste from build up or breakdown of your stand. You may order these from the CCIB Exhibition Online Manual. Please allow up to one hour for empty containers to be returned at the close of the show. All exhibitor materials must be removed from the exhibit facility by the Exhibitor Dismantle deadline.

Note: If you arrange your own transport, then you MUST book unloading slots with DHL for any vehicles arriving at the venue. This is mandatory whether or not you use their handling services. Please note that slots will be allocated on a first-come, first-served basis, Stand size and location and method of unloading. Please see DHL Shipping Guidelines in the Exhibitor Service Center for more info.
