Value Assessment Framework in Egypt (HIO Perspective)

Mohsen George, MD

Vice President, Health Insurance Organization - Egypt

Mohsen George – Arab Network Forum – November 13th 2018

Value Assessment Framework in Egypt

Currently:

- VAF-like committees
- PEU of MOH
- Capacity building
- New UHI law

Why VAF?

- Priority settings
- Pricing & reimbursement
- Efficiency
- Quality & safety
- Transparency

Challenges:

- Limited Financial resources for health
- Inefficiencies
- Lack of data
- Ineffective MIS
- No national CPG
- Healthcare technologies advances
- Comprehensive BP
- Lack of culture of value

In the near Future:

Establish VAF supporting decision making for benefits design, pricing & reimbursement
