

## **Great participation of ISPOR Belarus Chapter at ISPOR Europe 2018!**

*ISPOR Belarus Chapter activities during ISPOR Europe 2018, November 10-14, 2018, Barcelona, Spain.*

ISPOR Europe 2018 featured many presentations and included decision-makers, government officials, leading researchers and experts, academicians, students, pharmacists, public and private payers, HTA bodies, patients, patient advocates and many other stakeholders.

The event presented great opportunity for the members of the ISPOR Belarus Chapter to organize their activities. Sacek Marina Mikhailovna, Doctor of Medical Sciences, Director of the Republican Scientific and Practical Center of Medical Technologies, Informatization, Management and Economics of Public Health and Gavrilenko Larisa Nikolaevna PhD, Associate Professor (Department of Clinical Pharmacology, BSMU), Chief Clinical Pharmacology Specialist (Ministry of Health of the Republic of Belarus) took an active part in the conference. Report «Perspectives of E-Health Implementation in the Republic of Belarus» caused a heated discussion among the participants.

The ISPOR Belarus Chapter members participated by presenting many posters and as always attending the plenary sessions. The conference and the presentations gave participants the opportunity to share their experience of recent achievements in HTA in the region. In addition, ISPOR Belarus Chapter members had conducted a very interesting and a productive meeting with colleagues from ISPOR Poland, Slovakia, Kazakhstan, Armenia, Serbia, Russia Chapters.
