

PROGRAM

of the Republican Scientific and Practical Conference with international participation, dedicated to the 35th anniversary of the Department of Clinical Pharmacology of the educational institution "Belarusian State Medical University" (BSMU) and the 10th anniversary of the Clinical Pharmacology Service of the Republic of Belarus

"Clinical pharmacology and evaluation of medical technologies in the strategy of sustainable health care development"

Date - November 29-30, 2018

Venue - Dzerzhinsky ave., 83, 15th building, Minsk Registration

of participants - 09.00 - 09.30

November 29, 2018

Time	Subject of a report	Name of a reporter
09.30 – 09.40	Welcome speech of the Minister of Health of the Republic of Belarus	Valery Malashko
09.40 – 09.50	Welcome speech of Rector of the BSMU	Anatoly Sikorsky, Rector of the BSMU
09.50 – 10.10	The clinical pharmacology in the Republic of Belarus – stages of formation	Mikhail Kevra, M.D., Professor of the Department of Clinical Pharmacology of the BSMU
10.10 – 10.30	The 10th anniversary of the Clinical Pharmacology Service of the Republic of Belarus: results, the strategy of development	Larisa Gavrilenko, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU, the chief freelance expert in clinical pharmacology of the Ministry of Health of the Republic of Belarus
10.30 – 10.50	Pharmacology, clinical pharmacology, pharmacotherapy – "areas of responsibility" in the educational process	Aleksandr Khapaliuk, M.D., Professor, the Head of the Department of Clinical Pharmacology of the BSMU
break		

11.10 – 11.40	The mainstream in the organization and financing of medical aid in the Russian Federation	Vitaly Omelyanovsky, M.D., Professor, General Director of the federal state budgetary institution "The Center for Healthcare Quality Assessment and Control" of the Ministry of Health of the Russian Federation, a clinical pharmacologist
11.40 – 12.10	Clinical pharmacology as science and specialty	Aleksander Khadzhidis, Candidate of Medical Science, Associate Professor, the chief clinical pharmacologist of St. Petersburg
12.10 – 12.40	Cochrane evidence – the modern clinical pharmacology	Lilia Ziganshina, M.D., Professor, Cochrane Russia, coordinating center, Director, scientific-educational center of evidence-based medicine Cochrane Russia, Kazan Federal University
12.40 – 13.10	Age-related changes in pharmacokinetics and pharmacodynamics: what do we know today?	Sergey Zyrianov, M.D., Professor, the Head of the Department of General and Clinical Pharmacology of "Peoples' Friendship University of Russia", Deputy Chief Doctor for Therapy in the municipal clinical hospital №24, the Moscow Department of Health
lunch		
14.00 – 14.20	Continuous clinical and pharmacological education of doctors	Aleksandr Zakharenko, Candidate of Medical Science, Associate Professor, the Head of the Department of Clinical Pharmacology and Therapy of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
14.20 – 14.40	The introduction of mnemonic methods of memorizing information into the educational process of a medical university: the technology of creating and using mnemonic abbreviations	Marat Konorev, M.D., Professor, the Head of the Department of General and Clinical Pharmacology with a course of Faculty of Advanced Training and Retraining of the Vitebsk State Order of Peoples' Friendship Medical University

14.40 – 15.10	Antibiotic resistance as a global threat: ways of overcoming	Sergey Zyrianov, M.D., Professor, the Head of the Department of General and Clinical Pharmacology of "Peoples' Friendship University of Russia", Deputy Chief Doctor for Therapy in the municipal clinical hospital №24, the Moscow Department of Health
break		
15.30 – 16.00	Building a system for evaluating technologies in health care in the Russian Federation	Vitaly Omelyanovsky, M.D., Professor, General Director of the federal state budgetary institution
		"The Center for Healthcare Quality Assessment and Control" of the Ministry of Health of the Russian Federation, a clinical pharmacologist
16.00 – 16.20	Medical technology assessment as a progressive element in the development of the pharmaceutical industry	Viktor Shein, Deputy General Director of the Managing Company of Belpharmprom Holding Company
16.20 – 16.40	E-Health for the clinical pharmacology	Marina Sachek, Director of the state institution "The Republican Scientific and Practical Center of Medical Technologies, Informatization, Management and Economics of Public Health"
16.40 – 17.00	Criteria for assessing medical technologies. The problem of determining threshold values	Irina Kozhanova, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU, the chief freelance expert in clinical pharmacology of the Directorate General of Health Services of Minsk regional executive committee
17.00 – 17.45	The founding meeting on incorporation of the public association "The Belarusian public medical association "Clinical Pharmacology and Therapy"	Larisa Gavrilenko, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU, the chief freelance expert in clinical pharmacology of the Ministry of Health of the Republic of Belarus

November 30, 2018

Section 1. Circulation of medicines and drug safety in the Republic of Belarus and the Eurasian Economic Union (the EEU)

The Chairpersons – L. Ziganshina, M.Sachek, S.Setkina

09.30 – 10.00	Modern challenges to the concept of accessibility of Cochrane and their rational evidence-based medicine Cochrane	Lilia Ziganshina, M.D., Professor, Russia, coordinating center, medicines scientific-educational center use of Russia, Kazan Federal University
10.00 – 10.30	The trends and tendencies in research and the provision of new medical products	Vitaly Omelyanovsky, M.D., Professor, General Director of the new federal state budgetary institution "The Center for Healthcare Quality Assessment and Control" of the Ministry of Health of the Russian Federation, a clinical pharmacologist
10.30 – 11.00	Clinical studies of medicines required for their registration in the EEU: regulatory approaches and features in comparison with national legislation Products of the Technical Regulation Department of the	Dmitry Rozhdestvensky, Candidate of Medical Science, Associate Professor, Head of Section of Coordination of Activities in the Sphere of Circulation of Medicines and Medical Technical Regulation and Accreditation Department of the Eurasian Economic Commission
11.00 – 11.30	Adverse drug reactions	Marat Konorev, M.D., Professor, the Head of the Department of General and Clinical Pharmacology with a course of Faculty of Advanced Training and Retraining of the Vitebsk State Order of Peoples' Friendship Medical University
11.30 – 12.00	Current trends in the assessment of drug safety improvement of risk minimization measures	Svetlana Setkina, Deputy Head of the Republican clinical and profile, pharmacological laboratory of the republican unitary enterprise "Center for Examinations and Tests in Health Service"
12.00 – 12.30	Problem of drug interaction	Natalya Silivonchik, M.D., Professor of the Department of General Medical

Practice of the BSMU

lunch

- 13.30 – Combined therapy with Yury Marakhovsky, M.D., Professor,
14.00 proton pump inhibitors with the Head of the Department of
anticoagulants, antiaggregants Gastroenterology and Nutritiology of
and domperidone the state educational establishment
"Belarusian Medical Academy of
Postgraduate Education"
- 14.00 – The results of the monitoring Anna Tishkevich, a clinical
14.20 of emergency hospitalizations pharmacologist of the state institution
due to adverse drug reactions "Minsk Scientific-Practical Center of
Surgery, Transplantation and
Hematology"
- 14.20 – Infection control department. Aleksandra Lis, a clinical
14.40 The role of the clinical pharmacologist of the Belarussian
pharmacologist in evaluating research center for pediatric
oncology, infection control measures hematology and immunology
- 14.40 – Analysis of the rational use of Natalya Leskova, Assistant of the
15.00 medicines in health care Department of General and Clinical
facilities using matrix models Pharmacology with a course of
Faculty of Advanced Training and
Retraining of the Vitebsk State Order
of Peoples' Friendship Medical
University, a clinical pharmacologist
of the healthcare institution "Vitebsk
Regional Clinical Hospital", Vitebsk
- 15.00 – Technology for simulating Marina Ovchinnikova, Research
15.20 medicine provision with Associate of the Laboratory of the
antiretroviral drugs basics of standardization and evaluation of
medical technologies,
Marina Sachek, Director of the state
institution "The Republican Scientific
and Practical Center of Medical
Technologies, Informatization,
Management and Economics of
Public Health"
- 15.20 – Analysis of the consumption Aleksandr Kalyada, Senior Teacher of
15.40 of antibiotics for the the Department of Clinical

		6
15.40 –	treatment of pneumonia in hospitals of different levels "Belarusian Medical Academy of Postgraduate Education"	Pharmacology and Pharmacotherapy of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
16.00	QuantTB – a tool for flexible prediction and planning of monitoring and assessment of the drugs in phthiology Global Fund Grant Management	Vasily Akulov, a Specialist in TB Management
		Group, Marina Sachek, Director of the state institution "The Republican Scientific and Practical Center of Medical Technologies, Informatization, Management and Economics of Public Health"

Section 2. Clinical pharmacology in cardiology and rheumatology
The Chairpersons – N.Mitkovskaya, A.Khapaliuk, T.Tyabut

09.30. – 10.00	Pharmacotherapy of myocarditis	Natalya Mitkovskaya, M.D., Professor, the Head of the Department of Cardiology and Internal Diseases of the BSMU
10.00 – 10.30	Practical aspects of managing patients with atrial fibrillation	Elena Grigorenko, Candidate of Medical Science, Associate Professor of the Department of Cardiology and Internal Diseases of the BSMU
10.30 – 11.00	Current opportunities to reduce cardiovascular risks in patients with type 2 diabetes	Andrei Pristrom, M.D., Professor, the Head of the Department of Cardiology and Rheumatology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
11.00 - 11.30	The use of medicines that affect the renin-angiotensinaldosterone system in patients with arterial hypertension. The current state of the problem	Irina Kozhanova, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU, the chief freelance expert in clinical pharmacology of the Directorate General of Health Services of Minsk regional executive committee

11.30 – 12.00	Modern pharmacotherapy of acute coronary syndrome	Natalya Mitkovskaya, M.D., Professor, the Head of the Department of Cardiology and Internal Diseases of the BSMU
12.00 – 12.30	Clinical pharmacology of cardiotonics and vasopressors	Irina Pateyuk, Candidate of Medical Science, Associate Professor, the Head of the Department of General Medical Practice of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"

lunch		
13.30 – 14.00	Acute rheumatic fever in the 21st century	Tamara Tyabut, M.D., Professor of the Department of Cardiology and Rheumatology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
14.00 – 14.30	Arthralgic syndrome in rheumatology: examination algorithm, management strategy	Natalya Martusevich, Candidate of Medical Science, Associate Professor of the Department of Cardiology and Internal Diseases of the BSMU, the chief freelance rheumatologist of the Ministry of Health of the Republic of Belarus
14.30 – 15.00	Pulmonary embolism. Multidisciplinary approach	Tatiana Statkevich, Candidate of Medical Science, Associate Professor of the Department of Cardiology and Internal Diseases of the BSMU
15.00 – 15.20	Medicines of JLLC "Lekpharm" for treatment of cardiovascular diseases	Elena Kuzmina, a leading marketing specialist of JLLC "Lekpharm", the Republic of Belarus
15.20 – 15.40	Creatine phosphate - new indications and application possibilities – to be agreed	A marketing service specialist of JV Pharmland LLC, the Republic of Belarus

09.30 – 10.00	Evidence-based medicine in health care	Aleksander Khadzhidis, Candidate of Medical Science, Associate Professor, the chief clinical pharmacologist of St. Petersburg
10.00 – 10.30	Advanced therapy medicines: how they will change the health care?	Viktoriya Wolotko, Medical Advisor of the "Medicine, pharmaceuticals - innovative projects" union
10.30 – 11.00	Modern approaches to the treatment of pulmonary arterial hypertension	Irina Lazareva, Candidate of Medical Science, the Head of the 2nd Cardiology Department of the state institution «Republican Scientific and Practical Centre «Cardiology», the Chairperson of the Board of the Belarusian League against High Blood Pressure

Section 3. Clinical pharmacology of biotechnological and orphan medicines
The Chairpersons – A.Khadzhidis, I.Kozhanova, I.Chizhevskaya

11.00 – 11.30	Biological medicinal products in modern rheumatology	Nikolay Soroka, M.D., Professor, the Head of the 2 nd Department of the Internal Diseases of the BSMU
11.30 – 12.00	Belarusian experience in the use of biotech drugs in pediatric rheumatology	Irina Chizhevskaya, Candidate of Medical Science, Associate Professor of the Department of Pediatrics of the state educational establishment "Belarusian Medical Academy of Postgraduate Education", the chief freelance pediatric rheumatologist of the Ministry of Health of the Republic of Belarus
12.00 – 12.30	The use of immunoglobulin for intravenous administration in clinical practice	Tatiana Uglova, Candidate of Medical Science, the Head of the Clinical research laboratory of the Belarussian research center for pediatric oncology, hematology and immunology
lunch		
13.30 – 14.00	Biological medicinal products in the treatment of inflammatory bowel disease	Elena Adamenko, Candidate of Medical Science, Associate Professor of the Department of Gastroenterology and Nutritiology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
14.00 – 14.30	Targeted drugs in oncology	Aleksandr Zhukovets, Candidate of Medical Science, Associate Professor, the Head of the Department of Oncology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"

15.10 – 15.30	Treatment of HER-2 positive breast cancer	Svetlana Demidova, the Head of the 2 nd chemotherapy department of the public health institution "Minsk City Clinical Oncologic Dispensary"
14.30 – 14.50	Drug administration of everolimus in the treatment of subependymal giant cell astrocytoma (SEGA) associated with tuberous sclerosis	Aleksandr Poddubocky, a neurologist of the Belarussian research center for pediatric oncology, hematology and immunology
14.50 – 15.10	An antibody and chemotherapeutic drug conjugate as a new drug biotechnology for treating lymphomas	Nikolay Yermakov, Candidate of Medical Science, Leading Research Associate of the chemotherapy group of the state institution "N.N.Alexandrov National Cancer Centre of Belarus"

Section 4. Clinical pharmacology for specific categories of patients
(children, pregnant women, elderly persons)

The Chairpersons – A.Ushkalova, I.Vasilevsky, I.Romanova

09.30 – 10.00	Clinical pharmacology and comorbid patient: is rational pharmacotherapy possible?	Larisa Gavrilenko, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU, the chief freelance expert in clinical pharmacology of the Ministry of Health of the Republic of Belarus
10.00 – 10.30	Relevant issues of patients' adherence to treatment in pediatric practice	Igor Vasilevsky, M.D., Professor of the Department of Clinical Pharmacology of the BSMU
10.30 – 11.00	Antibiotic treatment problems in newborns	Elena Ushkalova, M.D., Professor of the Department of General and Clinical Pharmacology of "Peoples' Friendship University of Russia", Moscow

11.00 – 11.30	Asthma in pregnancy	Tatiana Baranovskaya, Associate Professor of the Department of Gerontology and Geriatrics with a course of allergology and occupational pathology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education", the chief freelance allergist and immunologist of the Ministry of Health of the Republic of Belarus
11.30 – 12.00	Current positions of anticoagulant therapy during pregnancy	Irina Romanova, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU, the chief freelance expert in clinical pharmacology of the Health care Committee of the Minsk City Executive Committee

12.00 – 12.30	Intrahepatic cholestasis of pregnancy from the position of a gastroenterologist	Elena Adamenko, Candidate of Medical Science, Associate Professor of the Department of Gastroenterology and Nutritiology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
lunch		
13.30 - 14.00	Drug-induced liver damage	Natalya Silivonchik, M.D., Professor of the Department of General Medical Practice of the BSMU
14.00 - 14.30	Arterial hypertension - features of pharmacotherapy in the elderly	Vadim Sushinsky, Candidate of Medical Science, Associate Professor, the Head of the Department of General Medical Practice of the BSMU
14.30 – 14.50	Polypharmacotherapy in elderly patients with comorbidity: improvement of compliance and safety of treatment	Olga Sadovskaya, Resident Medical Practitioner of the Department of Clinical Pharmacology of the BSMU
14.50 – 15.10	Standards of treatment and real medical practice in pediatrics	Igor Vasilevsky, Professor of the Department of Clinical Pharmacology of the BSMU, Elena Skepyan, Natalya Babich
15.10 – 15.30	The results of microbiological monitoring of pathogens of diseases of the upper respiratory tract in children to antimicrobial drugs at the outpatient stage	Elena Skepyan, Candidate of Medical Science, Associate Professor of the Department of Clinical Pharmacology of the BSMU
15.30 – 16.00	Polypharmacotherapy in patients with comorbid pathology	Aleksandr Verbovnikov, the chief expert of the Central Board on Organization of Medical Care and Expert Review of the Ministry of Health of the Republic of Belarus

Section 5. Clinical pharmacology and general medical practice

09.30 – 10.00	Chronic heart failure - outpatient treatment	Vadim Sushinsky, Candidate of Medical Science, Associate Professor, the Head of the Department of General Medical Practice of the BSMU
------------------	--	--

The Chairpersons – V.Sushinsky, E.Davidovskaya, I.Pateyuk

10.00 – 10.30	Acute coronary syndrome - for a general practitioner	Irina Pateyuk, Candidate of Medical Science, Associate Professor, the Head of the Department of General Medical Practice of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
10.30 – 11.00	Pharmacological gastroprotection: to whom, when and how?	Yury Marakhovsky, M.D., Professor, the Head of the Department of Gastroenterology and Nutritiology of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
11.00 – 11.30	Current treatment options for type 2 diabetes in the practice of a general practitioner	Elena Shishko, Candidate of Medical Science, Associate Professor of the Department of Endocrinology of the BSMU
11.30 – 12.00	Rhinitis medicamentosa	Anna Bucel, Associate Professor of the Department of the Department of General Medical Practice of the BSMU
12.00 – 12.30	Lipid-lowering therapy in patients with diabetes	Olga Kardash, the leading pharmacologist of the republican manufacturing unitary enterprise "ACADEMPHARM", the Republic of Belarus
lunch		

13.30 – 14.00	Personalized pharmacotherapy of bronchoobstructive diseases - interaction between a general practitioner and a narrowly focused specialist	Elena Davidovskaya, Candidate of Medical Science, the Head of the Department of Pulmonology and Surgical Methods of Treatment of Respiratory Diseases of the state institution "Center of Pulmonology and Phthysiology"; Associate Professor of the Department of Clinical Pharmacology and Pharmacotherapy of the state educational establishment "Belarusian Medical Academy of Postgraduate Education", the chief freelance pulmonologist of the Ministry of Health of the Republic of Belarus
14.00 – 14.30	NONrational antibiotic treatment of respiratory infections: analysis of common mistakes	Dmitry Ruzanov, Candidate of Medical Science, Associate Professor, Vice-Rector for Clinical Work of the Gomel State Medical University
14.30 – 14.50	A patient with chronic obstructive pulmonary disease in general medical practice	Larisa Lickevich, Candidate of Medical Science, the state institution "Center of Pulmonology and Phthysiology", academic secretary, Secretary of the Board of the Republican public association "Belarusian Respiratory Society"
14.50 – 15.20	Cerebrovascular diseases: diagnosis and treatment on an outpatient basis	Tatiana Pavlovskaya, Research Associate of the Republican Research and Clinical Center of Neurology and Neurosurgery
15.20 – 15.40	Clinical and pharmacological characteristics of modaphenyl	Anton Popov, Senior Officer of the 1st Division of the Military Medical Directorate of the Ministry of Defense of the Republic of Belarus
15.40 – 16.00	Medicines of JLLC "Lekpharm" for treatment of diseases of the musculoskeletal system and neurological pathology	Tatiana Imelinskaya, a leading marketing specialist of JLLC "Lekpharm", the Republic of Belarus

Section 6. Clinical pharmacology of antibacterial and antiviral medicines. Topical issues of overcoming antibiotic and virus resistance

The Chairpersons – I.Karpov, V.Matveev, O.Romanova

09.30 – 10.00	Rational antibiotic therapy in the XXI century	Vasily Zakharevich, the Belarussian research center for pediatric oncology, hematology and immunology, the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
10.00 – 10.30	Sepsis as a clinical problem	Igor Karpov, M.D., Professor, the Head of the Department of Infectious Diseases, the chief freelance infectiologist of the Ministry of Health of the Republic of Belarus
10.30 – 11.00	Etiotropic therapy for sepsis	Yury Gorbich, Candidate of Medical Science, Associate Professor of the Department of Infectious Diseases of the BSMU
11.00 – 11.30	Community-acquired bacterial meningitis: current features of etiotropic therapy	Nikita Solovey, Candidate of Medical Science, Associate Professor of the Department of Infectious Diseases of the BSMU, the chief freelance infectiologist of the Health care Committee of the Minsk City Executive Committee
11.30 – 12.00	Antibiotic resistance in pediatrics	Oksana Romanova, M.D., Professor, the Head of the Department of Infectious Diseases of the BSMU
12.00 – 12.30	The main mistakes when conducting antibiotic therapy in pediatrics	Vladimir Matveev, M.D., Professor of the Department of Pediatrics of Faculty of Advanced Training and Retraining of the Vitebsk State Order of Peoples' Friendship Medical University, the chief freelance clinical pharmacologist of the health department of the Vitebsk Regional Executive Committee, Vitebsk
lunch		

13.30 – 14.00	The results of treatment of chronic viral hepatitis C with direct-acting medicines	Dmitry Danilov, Candidate of Medical Science, Associate Professor of the Department of Infectious Diseases of the BSMU Dmitry Litvinchuk, Ph.D. candidate of the BSMU
14.00 – 14.30	Modern approaches to antibiotic therapy of reactive arthritis	Aleksandr Zakharenko, Candidate of Medical Science, Associate Professor, the Head of the Department of Clinical Pharmacology and Therapy of the state educational establishment "Belarusian Medical Academy of Postgraduate Education"
14.30 – 15.00	Ways to optimize antibiotic therapy of CNS infectious lesions in children in the first year of life	Marina Vasilyeva, Assistant of the Department of Pediatrics of the Vitebsk State Order of Peoples' Friendship Medical University, a clinical pharmacologist of the health care facility "Vitebsk regional children's clinical center"
15.00 – 15.20	Diagnostics and therapeutic tactics in response to liver fibrosis in chronic viral hepatitis C	Svetlana Lukashik, Candidate of Medical Science, Associate Professor, Igor Yurkevich, the Department of Infectious Diseases of the BSMU
15.20 – 15.40	Features of the postoperative drug provision in patients after radical operations on the chest	Natalya Golubcova, a clinical pharmacologist, Vitaly Sychevich, the Head of the Oncology Thoracic
	organs in respect to lung cancer, esophageal cancer, cancer of the mediastinum	Surgery Department, Andrei Fedorovich, the Head of the Department of Anaesthesiology, Resuscitation and Intensive Care, Alexey Obukhov, Deputy Chief Physician for Surgery of the health care facility "Vitebsk Regional Clinical Oncologic Dispensary", Vitebsk
