About International Society for Pharmacoeconomics and Outcomes Research (ISPOR)

ISPOR is the leading global professional society in Pharmacoeconomics and Outcomes research

Founded in 1995 as an international multidisciplinary professional membership society, the International Society for Pharmacoeconomics and Outcomes Research (ISPOR) advances the policy, science, and practice of **pharmacoeconomics** (*health economics*) and **outcomes research** (*the scientific discipline that evaluates the effect of health care interventions on patient well-being including clinical, economic, and patient-centered outcomes*) www.ispor.org .

With a 20-year commitment to education, collaboration, and leadership, ISPOR meetings, published resources, and facilitated discussions have evolved as the leading resources for health economics and outcomes research. Moreover, as an unbiased organization of 9,500 individual and student members from 114 countries, and over 8,700 affiliate members from our Regional Chapters www.ispor.org/RegionalChapters, ISPOR members represent the entire field including research, academia, decision and policy makers, consultants, payers, patient representative groups, and others. *ISPOR is a non-profit 501(c) (3) public organization for educational and scientific purposes, as defined by the US IRS.*

International Society for Pharmacoeconomics and Outcomes Research (ISPOR) – India Andhra Pradesh Regional Chapter

The ISPOR India - Andhra Pradesh Chapter was approved in June 14, 2012, established under the leadership of Dr. Y. Padmanabha Reddy (President – ISPOR India AP Chapter) comprising of 296 members. The Chapter focuses on developing a new approach of Pharmacy practice education from a regular curriculum wise teaching to an actual healthcare orientation / health outcome based training to maintain and improve patient's quality of life and adhere to rationality use of medications. The chapter has organized one international conference and seven national conferences within a span of 4 years which is well appreciated by all professional bodies of Pharmacy profession and ISPOR. The branch adages constant and novel contribution towards the evidence based learning, teaching, practice and research in pharmacy profession with global standards.

About the 8th National Symposium on Pharmacoeconomics and Outcomes Research

The main aim of the conference is to provide a platform for learning innovations in pharmacovigilance to ensure drug safety in Clinical, Regulatory and Market point of view to achieve better possible outcomes and improve Quality of life. It also improves knowledge regarding impact of drug mediated ADR over health care costs, methods and technologies available to reduce economic burden due ADR and improve drug safety.
