Chapter's accomplishments with regard to Chapter meetings, workshops, or conferences in 2017.

"Proposal of reimbursement models for the national Health System for the 21st century" The most relevant aspects of the process of pricing and reimbursement from the legislative point of view were discussed when that the proposals of the Public Administration have not been finalized. It was a complete working day with a conference at the beginning, 3 round tables and conclusions at the end. It was held in Madrid on the 8th of June of 2017. "The new paradigm of cancer treatments: A challenge for the health systems?" The goal of this forum was to discuss what would happen with the future oncology pipeline from a relative effectiveness perspective, and to consider the possible models to cushion the impact that will produce in the health systems. This was a forum during the EU Congress in Glasgow
