When are elections held for the Chapter Board? (Please describe how the election process is organized and indicate the term length for the Board members.)	We had elections during the EU Congress of ISPOR in Barcelona. In our chapter, as established in our bylaws, we have elections every 3 years and the maximum time to be part of the Board is 6 years. Every three years the chapter associates are called to new elections, which means that all the associates can submit candidatures for the Board that once in the assembly must vote to decide the new Board. In case there are no new candidates, new members are presented to the board to replace those that have left the Board for personal or professional reasons or those members who have remained the maximum of 6 years. It is voted in the assembly on the acceptance or not of the new members. One of the activities that we are going to review in our Strategic Plan that we are working on now is the process of choosing the Board.

Does the Chapter have a strategy for increasing membership?	We are in the process of elaborating our Strategic Plan where one of the objectives is this one and also to try to attract students to the chapter.
What steps did the Chapter take to retain and recruit new members in the past year?	Maintain frequent contact (via email or social media) with our associates, sending information about seminars or courses that are conducted from the chapter or from ISPOR. Try to organize activities on topics of great interest and relevance to them. Use the media to expand the information on the activities and advantages of belonging to the chapter, taking into account that we do not charge a fee, to encourage the incorporation of new members.
What benefits did the Chapter offer to the members?	Currently at no cost, they are informed about all the activities that made by the chapter or by ISPOR and also have a discount for being members of the chapter in them. They receive first-hand information about topics of interest in HEOR, via the information sent by ISPOR or other more local information, about legislative changes, etc.

In-person Workshop on HEOR (time and topic)	IV Workshop of the research in economic evaluation: 'Economic Evaluation as a tool for optimal decision making'. EEconAES. Madrid – 29th November 2018. Organized in collaboration with ISPOR Spain Chapter: On the 29th of November of 2018 was held in Madrid, at the Escuela Nacional de Sanidad (Instituto de Salud Carlos III) the V Research Workshop on economic evaluation organized by the interest group in the Economic Evaluation of AES (EEconAES) in collaboration with ISPOR Spain Chapter

	and the group GENESIS of the Spanish Society of Hospital Pharmacy (SEFH). The cooperation between the three entities has driven a large participation, which was expressed in the sending of twelve communications from which six were finally selected. The group EEconAES aspires to become a collaborative forum for sharing knowledge of the researchers dedicated to the economic evaluation in Spain, regardless of whether the institution is a university, healthcare management technology assessment, or consulting firm. It is not intended to compete with the training programs already existing, but to complete them to help the researchers to know the existing tools, their specific applications and how to solve the problems of its integration in a specific study. We try to avoid the experience that we have lived as experienced researchers where we have shaped basically self-taught. The Workshop aims to serve as a venue for discussion of methodological aspects related with the economic evaluation based on the presentation of work in progress. It has been the first joint activity between the ISPOR Spain Chapter and AES (Spanish Association of Health Economics). During 2019 we will formalize (agreement) this relationship between the two associations (See attached document REPORT ISPOR SPAIN CHAPTER 2018)

To advance HEOR in lower- and middle-income countries (LMICs), as defined by the World Bank, ISPOR offers benefits to members and Chapters in these countries. If your Chapter is located in an LMIC, do you value and use the current benefits? Are there additional benefits that you would like ISPOR to provide at the Chapter or individual member level? (click on links for further information)	
What are the 3 major challenges the Chapter is facing at the end of 2018? How do you think ISPOR can help you in addressing these challenges? Please provide specific examples.	
1	Create activities to attract young people (students, new professionals). ISPOR can contribute sharing activities from other chapters or ISPOR activities we can use

2	Having finalized our strategic plan for the coming years: ISPOR can help reviewing the Plan and making comments which will improve it
3	Have a secretary in operation to streamline administrative tasks of the chapter: I think this is a very local activity with no ISPOR intervention.
