CHAPTER 7: CHAPTER GOOD PRACTICES – CASE STUDIES

OUTSTANDING STUDENT CHAPTERS 2017-2018

West Virginia University – 1st Place

In addition to all of the activities listed, ISPOR is a valuable Graduate Student Organization not only within the WVU School of Pharmacy but also across the Health Science Campus. Our active participation in helping in the organization of WVU events such as Van Liere gives our chapter good recognition for our efforts. We are a recognized as a School of Pharmacy student organization and coordinate monthly with the Presidents of all School of Pharmacy student organization to improve the quality in both the PharmD and PhD program. We spearhead the interaction of graduate and professional students in the School of Pharmacy. In addition, WVU ISPOR’s Student Chapter is a member of the Robert Byrd Health Sciences Center Graduate Student Organization (GSO) which is a group of doctoral and master’s students throughout the University. Our chapter president, Drishti Shah, is also highly involved in the GSO. She was also a part of the GSO committee that was responsible for conducting nominations and selecting the winner for the “Best Faculty Award” across WVU Health Science Campus.

Our chapter members are also very active in showcasing their research findings in various arenas within our Institution. It is due to the active participation of ISPOR student members Xiaohui Zhao and Drishti Shah in the WVU Meeting of Behavioral and Biomedical Sciences (MOBB), that they were awarded the inaugural Dr. James Stevenson Scholarship Award for 2017 (http://www.hsc.wvu.edu/resoff/behavioral-biomedical-sciences/). Further, due to the active contribution of our Chapter President towards WVU ISPOR Chapter and other organizations within WVU, she was recently awarded the Outstanding Student Award within the School of Pharmacy.

Participation in University-wide 3-minute thesis for PhD Candidates

As the most senior member, WVU ISPOR’s member, Snow Feng, competed in the University’s Three Minute Thesis Competition after practicing with the WVU ISPOR Student Chapter. Her dissertation research was about “Switching from Vitamin K Antagonists to Non-Vitamin K Oral Anticoagulants, Drug-drug Interactions and Health Outcomes among Working-age Adults with Atrial Fibrillation” was very well received. Usually for such podium competitions and presentations, our members usually get together to help the speaker by serving as an audience during the practice session and by providing useful feedback. We plan to do the same for our member Xiaohui Zhao whose research on “Incremental Burden for Osteoarthritis” has been selected for podium presentation at the ISPOR Conference in Baltimore. This year has been a great year in terms of community service activities for the WVU ISPOR student chapter. One of our most successful events of the year was the Halloween themed WVU-ISPOR Annual Bake Sale event (October 30th, 2017), where we managed to raise $200 to donate food cans to the Morgantown Food drive, which gives food to children in need in the area of Morgantown, West Virginia. As a part of the “ISPOR Good Deed if the Year” all ISPOR members sent a personally signed card with happy messages to Jacob, a 9 year old with Stage 4 high-risk neuroblastoma. Doctors had told his family in early October that he probably has only a month to live. So the family had decided to celebrate Christmas early in 2017 and Jacob wanted people to celebrate with him by sending him cards. WVU ISPOR members tried their best by sending him cards with encouraging words and happy thoughts. With more than 2,000 deaths occurring each day from heart diseases in the US, our student chapter tries to make the most out of every opportunity to promote a healthy lifestyle. Being a part of the School of Pharmacy at WVU, our student chapter is fortunate to be close to other health institutions like the school of medicine and the school of dentistry. So, we often take advantage of this and participate in various health promotional activities organized by other schools. On this Valentine’s Day, WVU ISPOR student chapter members donned red attire to support American Heart Month along with American Pharmacists Association members.

Lastly, new students coming to our department from various parts of the country often struggle with receiving appropriate information about living in Morgantown and life at WVU. Our Chapter, under the
leadership of our former ISPOR secretary, Pragya Rai took the task of developing a “Welcome to WVU HSOR New Student’s Guide.” The guide provided information on how to reach Morgantown, nearest airports and bus stations, best places to rent apartments in Morgantown and things required to be done during the first one month of entering our program.

Examples:

Educational Activities:
AAPS-ISPOR organized Pharmaceutical Science Research Symposium (PSRS)
Our chapter in collaboration with WVU and University of Pittsburgh’s AAPS student chapter helped in organizing the 8th Annual Pharmaceutical Science Research Symposium (PSRS). This event rotates between University of Pittsburgh, West Virginia University, and Duquesne University. This year the event was hosted by University of Pittsburgh on June 21st, 2017. In addition to organizing the event, several ISPOR members also presented their research at the conference and won awards for the same.

The purpose of this event was to:

a. Connect, collaborate, and communicate with regional AAPS and ISPOR chapters to enhance interschool interactions, share research ideas and experience, create a regional annual Pharmacy Research focused meeting, and to establish connections with current and future leaders of the pharmaceutical industry.

b. Provide educational podium and poster presentations of current topics under the umbrella, “Biomedical and Pharmaceutical Research in the Era of Big Data: Rationale, Methods and Tool.

c. Provide students the opportunity to ask career-guided questions to members of academia and government to better their understanding of the demands and expectations associated with each field.

3. Internship Experience Presentation

While academia provides a great environment to sharpen our research and teaching skills, utilizing these skills in a real-world job setting is a different ball game. The WVU ISPOR Student Chapter President, Drishti Shah and chapter member, Pragya Rai were able to receive summer internships at leading bio-pharmaceutical companies Abbvie and Amgen respectively in the year 2017. In order to share their experience and skills that they learnt during the internship with rest of the WVU ISPOR members and school of pharmacy students, they hosted a discussion forum with faculty and students. The aim of this discussion forum was to guide students in their internship application process, share tools to enhance communication skills and expand knowledge on the structure and working of a HEOR team in a Pharma Industry.

Webinars/Journal Clubs

Our chapter organizes monthly WVU ISPOR meetings wherein our chapter President shares with other members’ important topics/information that is discussed during the monthly ISPOR President’s Meeting. While the first 15 to 20 minutes of the meetings are utilized for the exchange of information, the other half of the meeting is frequently used for journal clubs and webinars, Our first journal club for the year 2017 was organized on 6th February, 2017 on the topic “Feasibility of a novel mHealth management system to capture and improve medication adherence among adolescents with asthma.” The presenter for this topic was Pragya Rai. This year the focus of our journal club was use of Digital Technology in HEOR. Following this we organized three more journal clubs on topics, use of twitter in big data analytics, use of EMR data, and use of personalized medicines for improving health outcomes.

This year, we were fortunate to recruit members from other departments such as Clinical and Translational Sciences, Pharmaceutical Sciences, and Pharm D students. These students are not members of the main ISPOR student network. Therefore, our chapter also arranged the showcase of several ISPOR educational webinars, so that our Pharm D and other members can make the most out of the webinars.

We bought the chapter members and faculty together by facilitating several ISPOR webinars such as:

1. Good practices for successful job search on July 6, 2017
3. Disease Model Calibration on December 18, 2017
4. **Drug Pricing on February 21st, 2018,**

In addition to attending ISPOR webinars, we also showcased a webinar organized by Academy Health on “Pitfalls and Improvements to ACA’s Risk Adjustment” in January 2017 and a webinar on Medical Science Liaison (MSL) without industry experience on October 6th, 2017 by speaker Martijn Bijker. Receiving knowledge on career as a Medical Science and outcomes liaison was widely appreciated by Pharm D students.

**Social Activities:**

**WVU ISPOR Holiday Pot Luck Lunch & Gift Exchange**

Following the traditions from the past few years, once again, in the beginning of December 2017(after the end of finals), WVU ISPOR student chapter organized a holiday potluck. ISPOR students and faculty in the department participated in the holiday gift exchange (white elephant) which was followed by a multiethnic potluck. Our students and faculty cooked and brought some delicious food items from their culture. This is also a great way to celebrate the cultural diversity within our organization.

**Volunteer Activities:**

**Helped WVU Food Pantry**

Our chapter members helped WVU’s own food pantry (“The Rack”) by distributing food items to people in need. Since 2010, The Rack has provided WVU students with perishable and non-perishable food items. The WVU food pantry operates at two main locations, the Mountainlair and Arnold Hall. The Rack staff and volunteers participate in community service activities and assists WVU student organizations with their programming efforts.

**Mercer University – 2nd Place**

Mercer ISPOR is the primary campus organization that provides students with an in-depth introduction to research and Health Economics Outcomes Research (HEOR). There are not many opportunities in our College of Pharmacy, outside of the working experience and expertise of a few faculty that provide students with a solid foundation of knowledge of regarding HEOR. Mercer does not offer Health Economics and Outcomes Research degree programs, thus as the chapter leader I do my best to incorporate professionals in the field that will be able to provide members knowledge, insight and inspiration to pursue the field. Participation in Mercer ISPOR has opened doors for students to take advantage of multiple research and industry opportunities at Mercer, regionally and nationally. The majority of graduating students from our chapter secure coveted internships, APPE Rotations, Residencies and Fellowship experiences.

For the community, Mercer ISPOR promotes to high school and undergraduate students who attend Mercer College of Pharmacy Admission events. Officers and members promote careers that assess “value for healthcare” to attendees. Finally, our weekly community service events where we provide point of care services to the those in need in the community via blood pressure screenings, cholesterol and glucose screenings, we promote disease prevention and provide our members direct patient care experiences.

**Examples:**

**ISPOR/GSHP Journal Club Competition**

Journal Club Competition (Tuesday, April 10, 2018 from 4 pm to 7 pm) funded by the ISPOR Student Activities Grant. Students will compete against one another in teams of 2-4 members giving 30 minute presentations of a journal article on outcomes research to a panel of faculty judges to receive a monetary prize to be used toward school accessories and books.

**Book of Terms Competition: Tentative Date April 16, 2018**

During the Book of Terms Competition, student-formed teams of 4 will be required to study, comprehend and interpret the content found in the official book that ISPOR has chosen to be used as its "Book of Terms" over a 3-week period. Each team (4 students) will use their quick wit, reflexes and the Book of Terms knowledge that they have refined or acquired over the last three weeks to answer questions that have been formulated using the information found in the book of terms. The competition will require
participants to apply clinical and Pharmacoeconomic info/skills as they work as a team to beat other teams. It is our hope that the winning team will be available to attend this year’s ISPOR conference to represent Mercer College of Pharmacy in the Book of Terms Competition.

**ISPOR Member Fellowship/Potluck (12.07.17 & 11.22.17)**
ISPOR members held a potluck to celebrate one another, family, health and bright futures. We gathered to share in the holiday spirit with one another. This event provided us an opportunity to intermingle among classes and network within our organization. This even also served as an opportunity for us to socialize with one another.

**Koozie Fundraiser (02/29/18 to 03/22/18) sold 20 koozies that say “Mercer University College Pharmacy” to fundraise over $80 for ISPOR social events.**

**University of Arizona – 3rd Place**
Over the last year, our chapter has had a number of achievements including receiving two-chapter activity grants which were used for educational workshops to benefit our members and participating and winning the student t-shirt competition. We have recently increased our funding revenues, and increased membership of our chapter. Finally, we have substantially increased the number of educational, networking, social, and voluntary events to benefit not only our members, but also our community.

BEST NEW CHAPTER 2017-2018
University of Twente, Netherlands
The ISPOR Student Chapter enabled us to invite highly qualified speakers to our educational symposium. For this symposium, students from multiple educational programs were invited who had the opportunity to benefit from the knowledge and insights that were provided by these speakers. Furthermore, our members had the opportunity to further expand their professional network to improve on the possibility to establish valuable future collaborations. Furthermore, by having an active student chapter we improved on the financial resources which were necessary to take all our junior researchers and our PhD candidates to the annual European ISPOR congress.

We believe that we have shown exceptional motivation to contribute to the ISPOR professional society by organizing valuable events and retrieving financial resources enabling attendance to the ISPOR European meeting for all of our members. We utilized the valuable ISPOR resources to provide the opportunity to improve on the professional network of our members and even the students within our educational programs.

Examples:

Educational Activities:
We reached out to the directors of all relevant educational programs at our university to establish a collaboration so that approximately 400 students of these educational programs are invited to our events, our events align with the programs, and resources are shared and used efficiently. The educational programs with which collaboration was sought and established are: Health Sciences, Technical Medicine, Biomedical Engineering, and Industrial Engineering and Management. After establishing these collaborations we organized an Educational Symposium on “Developing, Evaluating, and Implementing Healthcare Interventions: applying methodologies in practice” in which five highly qualified (international) speakers from key institutions and a professional discussion leader spoke about Point-of-Care-Tests. The speakers represented different perspectives: government (National Institute for Health and Care Excellence [NICE], UK), industry (Philips), clinical (University of Amsterdam, Jeroen Bosch Hospital), and academic (University of Twente). The target audience were both senior staff from within and outside the university and Health Sciences, Technical Medicine, Biomedical Engineering, and Industrial Engineering and Management students. With approximately 100 attendees, the first edition of this educational symposium was considered a great success!

In addition, our president-elect at the time (Sofie Berghuis) organized a Course Track in the CuriousU Summer School. The track was named “The Future of Health Technology” and all officers contributed lectures to the Course Track. We earned approximately €2,000 for our ISPOR Student Chapter with this event. Based on the feedback and our personal experiences it was a great success!

Volunteer Activites:
We have supported the open days at the University of Twente in which we tried to make new and young people enthusiastic for our profession. For these days we have developed a Quiz which gave insights in questions that you will learn to answer in the educational program of Health Sciences. Furthermore, we have provided several lectures on health economics and statistics for bachelor and master students health sciences.

Social Activities:
We organized a movie night for all members of our Student Chapter during which we watched the PhD movie.

Encourage Faculty Advisor & Student Collaboration Across Chapters

- Leverage the communication lists for both students/faculty to enhance communication between presidents and also committees (i.e. google spreadsheet of chapter presidents & committee members, FAC Directory);

- Keep the Faculty Advisor (FA) in the loop about upcoming activities to help promote through channels (i.e. email list of all students in the program and/or email to other professors to distribute to their students);

- Join other chapters’ meetings through the use of technology like Skype, Google Hangouts, Web Teleconferencing technology, etc.;

- Increase awareness of ISPOR resources (i.e. FAC database on website so FA’s can connect with other FA’s, the Student Council Roster, and the Chapter President Resource Center);

- Organizing common events and communicating with other chapters that are nearby so they are aware;

- Formation of a regional liaison position and quarterly teleconferences to connect Chapter Presidents within a region (Latin America, Europe, Asia Pacific, Africa). This will provide feedback from those who are not able to attend teleconferences due to time zone. Regional liaison will report to SN Chair & ISPOR Staff and participate on the monthly teleconference to keep everyone up to date.

Recruiting Students From Other Disciplines

- Identify common interests of various programs within your institution. (i.e. MPH, PharmD, PhD);
- Attend events from other student organizations on campus and recruit them to an ISPOR event;
- Work with your Faculty Advisor to identify key professors in those programs and ask him/her to invite them to a meeting to discuss how to work together;
- Create promotional flyers tailored to the various disciplines;
- Work with consultancy or ISPOR Sponsors to get real world experience opportunities;
- Organized drinks to invite individuals from other programs;
- Collaborate with another student organization on campus (i.e. AMCP, DIA, ISPE, IHEA, EuHea, ASCO, SMDM);
- Show how Health Economics can explain other areas (Epidemiology, vaccination, etc.);
- Hosting bake sales or information sessions during beginning of the year to invite all students;
- Speak with other communities within your University like a general PhD network.

**Improve Student & Faculty Advisor Communication**

- Invite faculty to planning sessions one (1) each year or once each semester;

- Communicate information received from Faculty Advisor (FA) to students in Chapter and vice-versa;

- Schedule a once per month skype or teleconference between FA & Chapter President;

- Increase awareness of ISPOR resources (i.e. The FAC database on the website so FA’s can connect with other FA’s, the Student Council Roster, and the Chapter President Resource Center);

- Invite FA to Chapter President Teleconferences or the Virtual Retreat (optional to attend based on schedule) & make FA aware of archived teleconferences for educational purposes.

Identify Speakers For Chapter Events Or Webinars

- Social Media – (Search for most active individuals on LinkedIn, Facebook, Twitter for topics that are HEOR related);

- Networking with your Faculty members to help identify speakers that are prominent in your alumni network or at other Universities;

- See who is speaking for other chapters or at other Conferences;

- Contact the ISPOR staff and ask if they can provide some recommendations on speakers based on the topic you want to focus on;

- Identify topics of interest and then search for individuals that have expertise in those areas;

- Join the ISPOR LinkedIn Group and see who is active in the group;

- Send out an email to all professors in the program through the Faculty Advisor to solicit for potential parties interested in speaking for the Chapter;

- Invite speakers to do virtual presentations for your chapter through identifying Skype or another webcasting technology that your University offers. (You may also ask ISPOR to set up a Webex for the presentation provided we can promote it to all ISPOR Students.)

- Search for topics of interest on YouTube, TED, or other social media outlets to identify thought leaders and view the presentations they give to ensure they are a quality presenter.

Tips to Encourage Further Engagement of Students and Faculty in the Student Network

- Add Faculty Advisor Regional Leads, like the Student Regional Leads, for broader discussion between Faculty;
- Suggest the Student Chapter add a second Faculty member to help during times of additional need. This could be an advisor from outside the University who has experience in another discipline for added perspectives;
- Build student awareness of the existing ISPOR resources and engagement opportunities:
  - archived webinars, special interest groups, regional chapters, student committees/working groups, student newsletter, good practice reports, Dymaxium’s FormularyDecisions.com;
- Ask Faculty to assist in the planning and implementation of events:
  - organize mini HEOR symposia on campus and invite students from relevant disciplines (undergrad, masters, phd, pharmd) so they can learn about HEOR;
  - present for the Student Chapter on HEOR related topics and/or invite guest lecturers outside academia;
  - invite successful alumni back to the University to present about their ISPOR experiences and what they are doing now that they have graduated.
- Cross country collaborations on events:
  - collaborate with another chapter that is near your University or with another society that has a chapter at your University (ie ISPE, AMCP, Academy Health, DIA);
  - ISPOR can create a platform where chapters can share what events they are working on. This would include timelines, type of event, topics, etc and will allow chapters to easily see what other chapters are organizing so they might be able to collaborate with them (if they are considering a similar event) or build off the event in their own chapter.
- Implement a Chapter Awards Program to complement the Student Network Awards Program at the local level:
  - recognize student and faculty participation within the chapter and for attending events (ie, certificates for Officers to thank them for their service, certificate of attendance certified by the chapter and the University that the individual attended an event on a particular topic);
- Create a monthly or bimonthly chapter newsletter so it can be shared with faculty and students to keep both sides engaged about what is happening at the chapter level;
- Plan a Women’s day to recognize the Women in HEOR from the University or invite famous women alumna back to speak to the chapter;
- Focus on the social/networking aspect of ISPOR in addition to the educational components to encourage more variety in events;
- “Social media takeover” where the students can promote HEOR and their chapter using their University’s twitter or social media handles;
- Target undergraduates from broader degrees (ie. Pharmacology and Biomed).
